

**MB730 Variable Speed Transformer**

Description

- A high quality power source suitable for all Minicraft tools.
- Variable speed for increased applications
- Sufficient power for uninterrupted work at varying speeds
- Re-settable overload cut-off facility for extra safety and longer life
- Robust housing for increased durability

MB730 Variable Speed Transformer Specifications

- Primary voltage 220/230v, 50Hz
- Secondary voltage 9-16v DC
- Outputs Max 24VA
- Amps 2-4 Amps
- Speed control range 7,000-30,000 rpm
- Cable length 2.0m
- Weight 1.05kg.
